# Person-Centered Care in Practice

## Person-Centered Care in Practice for Families

What if someone you love has been diagnosed with mild cognitive impairment or dementia—now what? What does that mean? What can you do? What sort of future is in store for you?

Person-Centered Care in Practice for Families has the information you need about mild cognitive impairment and dementia, ideas for things you can do now to keep your brain and body as healthy as possible, practical strategies for managing the changes ahead, and suggestions for staying in control of your life. Making the most of life with mild cognitive impairment or dementia requires you to think differently about yourself, your family and friends, and the person at the center of it all.

Person-Centered Care in Practice for Families is for you. When a family member is living with mild cognitive impairment or dementia, the whole family should be prepared and ready to experience new responsibilities, situations, and emotions. This book is designed to help families and care partners better understand and handle the life changes that happen when a loved one is diagnosed with mild cognitive impairment or dementia.

## Person-Centered Care in Practice: Tools for Transformation Book

Based on the authors' 10-year partnership of research and real-world experience, this book guides you through the essentials so you can manage a facility-wide implementation: create and sustain real change, assess your progress, and stay on track. Realistic strategies and illustrated examples help you focus on what's necessary in your facility for a successful transformation. The Toolkit makes it happen with 24 reproducible resources, like the Plan of Care Guide, Interactions Training Worksheet, and Place Experience Assessment. The Book includes a CD with both PDF and customizable Word versions of the documents in the Toolkit, plus a Facility-Wide license for printouts.

# Person-Centered Care in Practice Package

## Modeling Person-Centered Care in Practice DVD

Created for professional caregivers and family care partners, this DVD features people with dementia as they go about their days, and shows professional caregivers in action. Training your administration and staff in person-centered care is easier when they can see and hear the difference for themselves. Family members will appreciate seeing caring and creative ways for understanding and coping with the behaviors of their loved ones. This training tool demonstrates a variety of simple, common-sense techniques for building relationships, as well as imaginative and innovative approaches for preventing and defusing challenging behaviors through engagement. DVD, 23 min., CC, SDH subtitles, 2013.

*Great for new and experienced caregivers!*

*Building relationships*

*Staying engaged*

*Maintaining independence*

*Developing social confidence*

### A Systems Approach to Change

Person-centered care is a promising model to achieve a culture change throughout your long-term care setting. The Person-Centered Care in Practice Package guides you, step by step, through the transition process to a system-wide model of care. The Package consists of three complementary components: Person-Centered Care in Practice: Tools for Transformation Book, Person-Centered Care in Practice for Families Book, and Modeling Person-Centered Care in Practice DVD. Together they give you the background knowledge, implementation tools, and training resources to successfully transform your organization.

### Person-Centered Performance Indicators

- ✓ Engagement (participant behavior)
- ✓ Interaction (staff behavior)
- ✓ Personal Detractors
- ✓ Partner Record
- ✓ Person-Centered Plan of Care
- ✓ Person-Centered Plan of Care Review
- ✓ Self-Evaluation Performance Appraisal
- ✓ Performance Evaluation

### Person-Centered Care in Practice Package

# Mental Fitness

## Sharpen Your Senses Cards

These activity cards are the perfect tool for using the senses to keep the brain active! Great for large or small adult groups of all ages, or for individuals seeking to improve mental fitness. (Pg. 8).

## Sharpen Your Senses Through Travel Across the U.S. Cards

These cards will help older adults use their five senses as they learn about the world around them everyday. They encourage thought and conversation among older adults, including those with early memory loss. (Pg. 8).

## Mental Fitness Cards

100 cards give quick and easy access to a wide variety of stimulating exercises. (Pg. 7).

## Thinking Cards

Designed to accommodate users with mild cognitive impairment or early Alzheimer's Disease. These cards use simpler language with larger print and colorful photos to stimulate conversation. (Pg. 7).

## Expand Your Mind Cards

100 cards that stimulate creativity, enhance memory, and exercise the brain. Ideal for individuals, small groups, or larger groups wanting to expand their minds. (See website).

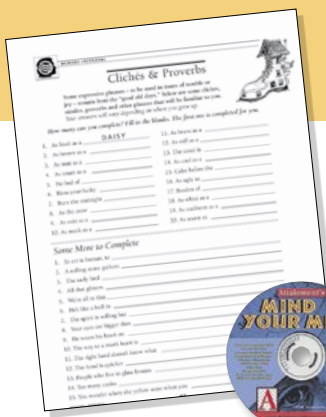

Easy

Hard

Professional version includes PDF on CD

## Mind Your Mind

Beatrice Seagull, Professor Emeritus, has created Mind Your Mind workouts for the active, capable older adult who wants to stay that way! Dr. Seagull fine-tuned the exercises through years of experience presenting Mind Your Mind workshops. Workouts are designed to stimulate the whole brain and encompass nine cognitive skill areas. Includes over 100 exercises, mostly in worksheet format, plus useful background information, practical tips, and encouraging advice. Winner of American Society on Aging's MindAlert Award!

A Professional version gives photocopy rights and a PDF on CD for quick printouts. Great for group work! Covered spiralbound book, 220 pgs.

<b>Mind Your Mind</b>	<b>MYM-01G</b>	<b>\$39.00</b>
<b>Mind Your Mind, Professional</b>	<b>MYM-02G</b>	<b>\$69.00</b>

### Cognitive Skills

- ✓ Metacognition
- ✓ Memory
- ✓ Flexible Thinking
- ✓ Perception
- ✓ Language Use
- ✓ Reasoning
- ✓ Number Use

## Mental Fitness Program

This contemporary program features an Instructor's Guide with reproducible handouts, an engaging DVD to add energy and fun to your groups, and two Card Sets to accommodate participants of varying cognitive abilities. These components work together seamlessly to help you successfully manage mental fitness groups for older adults.

**Mental Fitness Instructor's Guide** presents eight themed sections, like Brainstorming and Stimulating Your Imagination, each with multiple activities. These goal oriented, step-by-step activities include cognitive adaptations, discussion suggestions, and all the handouts you need.

**Mental Fitness DVD** features stimulating and enjoyable exercises. The 24 video segments use a play and pause format to encourage viewer participation. The actors are a dynamic twosome, full of fun and energy—with a little sex appeal!

The 100 **Mental Fitness Cards** give quick and easy access to a wide variety of stimulating exercises. Organized into 12 categories, like Puzzles, Seeing, and Problem Solving.

**Thinking Cards** are based on the Mental Fitness Cards, but designed to accommodate users with mild cognitive impairment or early Alzheimer's Disease. These cards use simpler language with larger print and colorful photos to stimulate conversation.

# Strengthen Your Mind

## Strengthen Your Mind

Thinking about creating a memory enhancement course? This package will get you started. The Strengthen Your Mind Program includes complete lesson plans for 12 engaging topics. Strengthen Your Mind: Volumes One and Two include over 150 activities which allow you to run a course from 3 months to 1 year. Softbound books by Kristin Einberger and Janelle Sellick.

The easy-to-use **Sharpen Your Senses Cards** complete the curriculum.

## Sharpen Your Senses Cards

Sharpen Your Senses Cards concentrate on the five senses. Users imagine, reminisce, evaluate, guess, and describe their responses to each question. These activity cards are the perfect tool for using the senses to keep the brain active! Great for large or small adult groups of all ages, or for individuals seeking to improve mental fitness. Facilitator's booklet gives suggestions and additional activities.

Developed by author and memory loss specialist Kristin Einberger. Boxed set includes 120 laminated 4" x 6" cards in six categories, instructions, and facilitator's booklet.

## Sharpen Your Senses Cards Through Travel Across the U.S.

We use our senses to bring back memories of times gone by. These cards will do just that—

- by using travel throughout the United States as a vehicle to reflect on certain events from earlier times in our lives,
- by using different places we have lived and/or visited to trigger memories, and
- by using observations of how others live throughout the U.S. as a way to stimulate conversation.

These cards are designed to encourage thought and conversation among older adults, including those with early memory loss, but may actually be used effectively for a much wider audience.

The cards have been field-tested successfully with a variety of different groups as well as individuals.

## Strengthen Your Mind Package

Includes all products shown above!

# Dementia Care

## Dementia Caregivers' Training Package

**Resources on Alzheimer's Disease** manual contains critical information, valuable assessment tools, and an inservice handout on Alzheimer's disease that complements the DVDs. Includes a PDF on CD for easy printouts.

**Alzheimer's Disease DVD** is a video-based teaching tool for professional caregivers. It has four sections: Mild Cognitive Impairment, Early, Moderate, and Severe Cognitive Disability. Physical changes in the brain, cognitive capabilities, and behavioral manifestations are covered. The program includes real family profiles, actors portraying common dementia behaviors, and interviews with caregivers.

**Straight Talk About Dementia DVD** features a series of interviews organized by topic, so you hear the straight stories directly from those who struggle with caregiving issues every day. Topics include: Ethical caregiving, enhancing communication, encouraging compliance, daily living activities, fundamentals like eating and bathing, and caregiver health. Interviews were compiled in the homes and offices of actual caregivers and form an easy-to-follow narrative, ideal for both support groups and training programs. Winner, CINE Golden Eagle Award.

Winner,  
CINE  
Golden Eagle  
Award

### Great for new and experienced caregivers!

This package features two staff training DVDs (Alzheimer's Disease and Straight Talk About Dementia) and a manual with reproducible handouts that reinforce the videos. A complete training program for new and experienced caregivers. The Alzheimer's Disease manual and DVD were created by Drs. Kim and Gail Petersen, from their work with dementia patients and their families for over 25 years. Straight Talk About Dementia is a winner of the CINE Golden Eagle Award.

Strategies for caregiving

Real families

# Team Training/Brainstorming

## Brainstorming Solutions for Dementia Care

Training game for professional caregivers

This engaging game provides your staff with friendly team competition in a fast-paced, interactive, and collaborative environment. It's designed for anyone who provides care for persons living with dementia.

Team members select cards from five categories: Fact, Challenge, Activity, Wild, and Crisis. Together players brainstorm solutions for person-centered care. It's a great way for care partners to create innovative solutions!

Brainstorming Solutions for Dementia Care was created by Drs. Kim and Gail Petersen, well-respected dementia educators. They use real-life examples to help caregivers develop a variety of strategies. Boxed game includes laminated 24" square board, instructions, 120 game cards, dice, timer, and butterfly pawns.

**Brainstorming Solutions for Dementia Care**     **BST-02G**     **\$69.00**

*Ideal for both support groups and training programs!*

## Brainstorming Solutions

is perfect for building a team of care partners working in:

- Long-term care
- Assisted living
- Adult day centers
- Memory care homes
- Agencies on aging

## Discussion Topics

- ✓ Dementia facts
- ✓ Challenges
- ✓ Activities
- ✓ Crisis management
- ✓ Person-centered solutions

## Challenge

### Challenge

Ms. A, who is in Broberg Stage 7 of Alzheimer's disease, spends her day in the nursing home calling out "Help me, help me!" She gets angry, the other residents avoid being around her, and the staff gets very irritated by her repetitive vocalizations.

What can you do to help her?

*Included in game are cards, dice, timer, and butterfly pawns.*

## illuminate

### A comprehensive curriculum for early memory loss

All illuminate activities have been field tested and each is designed to encourage participants to use their brain in novel ways. Facilitators can easily adapt the 50 agendas and activities to meet the diverse needs of a particular group. Samples of 25 topics include memory enhancement, brain dominance, optimism, stress and relaxation, remembering names, and self-esteem. Sessions follow a similar format: warm-up, homework review, topic discussion, creativity, physical fitness, mental fitness, and homework. An excellent tool for professionals in memory loss programs. By Dawn Adler, Kristen Einberger, and Victoria Haas.

**illuminate UWM-03G \$89.00**

## TimeSlips™ Creativity Journal

### Creative Storytelling

When memory loss separates individuals from their loved ones, TimeSlips invites them to shift . . . from memory to imagination!

TimeSlips is an international leader in providing tools for meaningful engagement in long-term care settings. This new Creativity Journal was designed for one-on-one use with people with memory loss.

The journal provides instructions on how to build relationships by engaging in the art of storytelling. Included are 10 inspirational images, sample open-ended questions, and blank pages to record stories. Ten matching postcards offer the opportunity to share favorite lines with friends or family. Covered spiralbound book, 64 pgs., with perforated postcards, by Ann Davis Basting.

**TimeSlips Creativity Journal TIM-02G \$24.00**

**10 TimeSlips Creativity Journals TIM-10G \$199.00**

### TimeSlips™ helps people with dementia—

- Engage in conversation and storytelling
- Replaces the pressure to remember with the freedom to imagine
- Enables a positive and creative one-to-one relationship with people with memory loss

*A Gift of Imagination — mail these postcards to family and friends*

# The Unexpected Caregiver

How to keep Mom & Dad Active, Safe, and Independent —and Yourself S.A.N.E.™

The new and expanded edition of The Unexpected Caregiver is chock-full of additional material targeted to the specific needs of adult children in their role as caregivers. As a caregiver you must keep yourself S.A.N.E.—Supported, Appreciated, Not guilty, and Energized. The how-to dynamics of caregiving relationships between adult children and their aging parents have been a mystery, but Kari Berit unravels the mystery with insightful caregiving solutions and helpful suggestions in her updated book.

Even if you have reached a critical point in the caregiving process, The Unexpected Caregiver teaches both family and professional caregivers to recognize and set the crucial boundaries and limits needed to maintain their own health.

In her upbeat and story-filled manner, Kari Berit addresses the issues of cumulative stress and strain on caregiving adults, and provides you with numerous creative ways to engage your parents in the caregiving process.

The Unexpected Caregiver is organized by themes: The challenges of family caregiving; mental, emotional, and physical health; parent-directed activities; finding creative outlets; end-of-life issues; and dealing with complex family relationships. By Kari Berit, MS. Softbound book.

**The Unexpected Caregiver UN-02G \$25.00**

# Whole Brain Workouts

Thought-provoking workouts

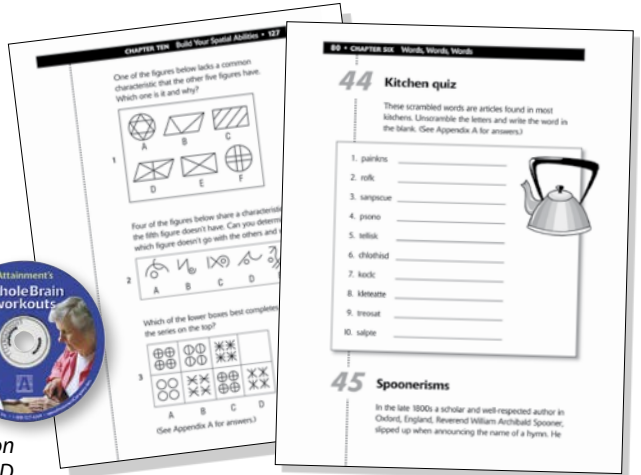

Dr. Marge Engelman's Whole Brain Workouts, based on current research, features 125 fun and thought-provoking workouts to keep older adults alert and mentally healthy. Activities range from knock-knock jokes to brain teasers to puzzles and visual illusions. Whole Brain Workouts is great for individuals or professionals. Includes a mental fitness evaluation and workout planner. Professional version gives photocopy rights and a PDF on CD for quick printouts. Softbound book, 180 pgs.

**Whole Brain Workouts, Professional WB-07G \$59.00**

**Whole Brain Workouts WB-02G \$25.00**

**Talking Photo Album**  
**PH-01G \$49.00**

- Good sound
- Good volume
- Durable

## Empower Communication Board

### Frontline healthcare communication

The Empower Communication Board (ECB) enables individuals with communication challenges to participate in and direct their care throughout a medical encounter. The ECB concepts are field tested in a hospital setting by authors Jane K. Quarles, MS, CCC-SLP, and Melanie Wood, MS, OTR/L, ATP.

The ECB offers multiple overlay designs based on research to suit the cognitive, linguistic, and motor needs of the individual. It can be used as a single overlay to gain attention or answer yes/no/I don't know questions. Or a combination of overlays can be used to deliver a more complex message. The convenient dry-erase page allows the patient or listener to write or draw items to ensure messages are understood.

Research supports the use of video modeling techniques to train communication partners. Attainment is excited to offer staff, families, and friends the opportunity to access an easy-to-use video tutorial via a QR code on the ECB. The video provides quick training at bedside as needed.

**Empower Communication Board ECB-01G \$39.00**

*Quantity discounts available for hospital-wide implementation.*

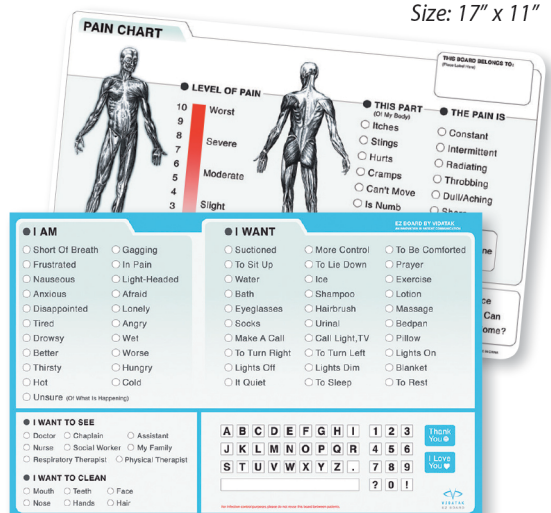

## Vidatak HealthCare Communication Boards

### Supported by clinical research

The Vidatak EZ Board is a perfect communication tool for individuals who are unable to speak! The 17" x 11", two-sided, dry-erase boards are individually shrink-wrapped and pre-assembled with dry-erase marker. The EZ Board is available in English as well as other languages.

Implement EZ Boards into your everyday patient care. Improve patient satisfaction and patient outcomes, while achieving cost-saving benefits for your facility!
